## ● Oriental Rugs

Oriental rug owners generally take pride in the workmanship behind their rug. We take the same pride in maintaining your rug. Our prices include pick up and safe delivery of your rug. We then take your rug through a state of the art dust removal process. Once that is done, we submerge your rug into our special rug pool. While submerged, the rug is gently aggitated with a mild solution that concentrates on maintaining color-fastness and the design integrity of the rug and rinsed to ensure maximum stain removal.

Tough stains and/or pet problems may be cause for longer submerged times, or repeated steps. Once done, we extract the excess moisture out of the rug and then depending on the fabric and style of the rug, we flat blow dry the rug or hang and air dry it.
